25 years anniversary InterExpo Caribbean N.V.

## 'Sustainable business between the Kingdom of the Netherlands, the Caribbean region and Latin America'

The trade mission consists of two parts: a congress - allowing approximately 15 to 20 international speakers. The first day of the congress will be rounded off by a gala dinner on the occasion of concluding the bicentenary celebrations of InterExpo Caribbean. The guest list includes the Governors and Prime Ministers of Curaçao, Sint Maarten and Aruba, and the Kingdom Representative of the public bodies of Bonaire, Saba and Saint Eustatius. Of course, many CEOs from several companies from the Caribbean region and Latin America will also attend.

The target is to achieve sustainable business between the Kingdom of the Netherlands, Latin America and the Caribbean region. When we say Kingdom of the Netherlands, we refer to the autonomous countries Curaçao, Aruba, Sint Maarten and the three special municipalities of the Netherlands: Bonaire, Saba and Saint Eustatius. What opportunities do the entrepreneurs have on all sides?

### Sustainability

Since a number of years, we have explicitly been focusing on sustainability. On content level with attention to the sustainable energy market, and by stimulating long-term partnerships. We give financial institutions and investors the opportunity to take a look behind the scenes of (new) markets in the Caribbean area and in Latin America. At the same time we point out sales markets for various products and services to the entrepreneurs.

### Participants

As has become customary, our congresses are well represented by the business community, but also by employers' organizations, the financial sector (trust and banking sector), representatives of governments from the Caribbean parts of the Kingdom, the Caribbean region and Latin America.

### Speakers

We are expecting 15-20 international guest speakers. Chairman congress Prof. Dr. Peter Diekman.

You can register by e-mail. Please go to [www.interexpo.biz](http://www.interexpo.biz) for further information and short footage for an impression of previously held trade missions.

## 25<sup>th</sup> Anniversary Congress & Matchmaking, 29-30 November 2017

### Debates

During the trade mission and the congress, we will organize a number of debates. One debate will have the theme opportunities of new energy (energy, water management, utility); one medical debate; another debate will be for entrepreneurs/financials where leading entrepreneurs/financials from various countries enter into a debate.

### Match-making

In the matchmaking part, the participants can enter into dialogue with each other about developing new partnerships and taking optimum advantage of opportunities on the reciprocal markets. InterExpo offers tailored services; based on a clear profile, a match is found adhering to the business needs of a company.

### Bicentenary celebrations of the Kingdom

The Kingdom of the Netherlands consists of the countries Netherlands, Aruba, Curaçao and Sint Maarten and three special municipalities Bonaire, Saba and Sint Eustatius. On 29 november 2017, The Hague hosts the 25th year anniversary of InterExpo. InterExpo contributes by organizing a farewell party.
