

27th trade mission

Connecting sustainable businesses from the Kingdom of the Netherlands, Caribbean region and Suriname

InterExpo Caribbean organizes the 27th trade mission on the Caribbean island of Sint Maarten. The mission's goal is to connect the business community from the Netherlands and the Caribbean part of the Kingdom to the Caribbean region and Suriname. What are the opportunities that exist for entrepreneurs on the islands of Jamaica, Barbados and Trinidad? And what role can Sint Maarten play as a hub to the region?

Sustainability

The 27th trade mission focuses on sustainable innovations and investments. Sustainable means striving to start long-term partnerships. Participants include companies, employers' organizations, the financial sector (trust and banking), industry associations and government authorities from the Netherlands, the Caribbean parts of the Kingdom, the Caribbean region and Suriname. InterExpo cooperates closely with various Business Associations in the region.

Entrepreneurs

A Dutch entrepreneur, active in fire safety and environmentally friendly technologies, explains why the trade mission on Sint Maarten is interesting: 'Dutch legislation is applicable to the windward islands of Saba and Sint Eustatius and these economies are thus very accessible for Dutch companies'. Other islands in the Caribbean region and Suriname, such as Saint Vincent and Antigua, have also caught his attention.

Matchmaking

During the trade mission's matchmaking part, participants can engage in conversations on the development of new partnerships and seizing opportunities in their respective markets. InterExpo offers a customized service; using a clear profile, a "match" based on the specific business desires of a party will be pursued.

About InterExpo

InterExpo Caribbean N.V. has been organizing trade missions, congresses and events with an international character in the Caribbean, the Netherlands, Europe, Asia and North and Latin America since 1992. Previous events focused on wind and solar energy, tourism, construction industry, on- offshore, second homes, partnership, health, (fire) safety and environment, water management, (glass) recycling, financial services, transport (sea, air and road), telecommunications and sustainability in the Caribbean part of the Kingdom of the Netherlands.

Business visit to Saba
and Sint Eustatius.**

Congress "Economic recovery following Hurricane Irma on the Caribbean Islands, September 2017"

In September 2017, hurricane Irma left the Caribbean Islands with total destruction and devastation. Much time and energy will have to be spent to rebuild the islands and to get the local economies recover from this natural disaster. The Government Kingdom of the Netherlands is involved due to the destruction on the islands of St. Maarten, Saba and St. Eustatius, which form part of the Leeward Islands.
