

## **Press release**

**27<sup>e</sup> Trade Mission and Congress InterExPo, St. Maarten, Saba and St. Eustatius, focusing on the economy after the reconstruction of the Caribbean islands, to be held on 27-30 November 2018.**

InterExpo Caribbean, has been successfully organizing for 26 years trade missions and theme-conferences in the context of doing business within the Kingdom of Netherlands, the Caribbean islands and Suriname. These trade missions also aim to connect companies in these countries through matchmaking sessions whereby creating mutual trade relations.

On 27-30 November 2018 the 27<sup>th</sup> Trade Mission and Congress “Sustainable business between the Kingdom of the Netherlands, Suriname and the Caribbean will be held. It is an anniversary edition since it is the fifth time that InterEXpo organizes this congress on the three Dutch Windward Islands.

This edition has an extra special character. After the devastation in September last year caused by Hurricane Irma on the Dutch Windward islands and other islands in the region the theme of the Congress is: “The economy after rebuilding the Windward Islands”. The focal point in this part of the Congress is what the business sector can do in the context of the rebuilding the islands. The moderator is Prof. Dr. Frank B.M. Kunneman.

During the Congress representatives of the Kingdom of the Netherlands, the Caribbean and the local business- and financial sector will give their presentations. Entrepreneurs who are interested in doing business and are willing to contribute to the reconstruction of the affected region, will be extensively informed of the ways in which they can offer their services, products, partnerships etc.

Of course, as was the case with previous trade missions, participating companies through matchmaking will be able again to establish fruitful contacts with companies from the region and vice versa. In the past, this has often resulted in successful partnerships.

Sectors that are represented are among other agriculture and livestock, construction(materials), renewable energy and water, transportation, the financial sector, the oil sector, tourism, the retail sector, legal experts, real estate and last but not least local government representatives.
